Professional Summary

Versatile Software Engineer with **5+ years of experience** building scalable solutions across web scraping, data engineering, full-stack development, and mobile applications. Proven track record of delivering high-performance systems that process **millions of data points daily**. Expert in Python and JavaScript ecosystems with a passion for solving complex technical challenges and driving business growth.

Professional Experience

Senior Software Engineer

Freelance / Remote

Full-stack development, web scraping solutions, and data engineering for global clients

2019 - Present

- Built 50+ web scraping solutions processing millions of data points daily
- Developed real-time data pipelines handling 1M+ transactions per day
- Created SaaS platforms serving 50+ businesses with 100K+ users
- Achieved 100% job success rate on Upwork with 5-star average rating
- Delivered projects for clients in USA, Europe, Australia, and Asia

Full-Stack Developer

TechCorp Solutions

Developed healthcare management system used by 25+ clinics

Built mobile applications with 50K+ downloads

Implemented microservices architecture reducing load times by 60%

Mentored junior developers and established coding standards

Software Developer

StartupTech Inc.

Built scalable web applications and automated business processes

2017 - 2018

Created automated data collection systems saving 40+ hours/week

Developed REST APIs serving 10K+ requests daily

Improved application performance by 45% through optimization

Collaborated with cross-functional teams in agile environment

Featured Projects

E-commerce Price Intelligence

Built distributed web scraping system monitoring 500+ e-commerce sites, processing 10M+ products daily

Python Scrapy AWS

Developed full-stack healthcare management system serving 50+ clinics with telemedicine capabilities

React | Node.js | PostgreSQL

Financial Data Pipeline

Designed real-time data pipeline processing 1M+ transactions daily with fraud detection

Kafka | Spark | ClickHouse

Food Delivery Mobile App

Created cross-platform mobile app with 100K+ users, featuring real-time tracking and payments

React Native | Firebase | WebRTC

Technical Skills

Programming Languages

Python | JavaScript | TypeScript | Java | Go | SQL

Web Scraping

Scrapy | Selenium | Playwright | Beautiful Soup | Puppeteer | API Integration

Apache Kafka | Apache Spark | Airflow | dbt | Snowflake | Delta Lake | Flink

Data Stack

Pandas | Polars | Great Expectations | Fivetran | Airbyte | ETL/ELT Pipelines

Frontend

React | Next.js | Vue.js | Astro | Tailwind CSS | TypeScript

Backend

Node.js | Express | Django | Flask | FastAPI | GraphQL

Mobile

React Native | Flutter | Swift | SwiftUI | iOS

Databases

PostgreSQL | MongoDB | Redis | ClickHouse | TimescaleDB | BigQuery

Cloud & DevOps

AWS | Google Cloud | Docker | Kubernetes | CI/CD | Terraform

Bachelor of Computer Engineering

Pokhara University

Nepal | 2013 - 2017

GPA: 3.7/4.0

Certifications

AWS Certified Solutions Architect

Google Cloud Professional Data Engineer

MongoDB Certified Developer

Kubernetes Application Developer

Scrum Master Certification

Achievements & Recognition

100% Job Success Rate on Upwork

Top Rated Freelancer Status

50+ Successful Projects Delivered

5-Star Average Client Rating

$500K+ Revenue Generated for Clients

Featured in Top 1% of Developers
